

The Art of Preschool.

If you think about it, the word "preschool" hardly seems to do justice to this critical phase of human development...somehow suggesting that it is the time *before* learning begins. We all know, of course, that nothing could be further from the truth. There's a reason why everyone says that the first years of a child's life are "formative" – they truly *form* the person, and have a profound influence on the path and quality of the rest of their life.

At ArtsCalibre, we believe that Fine Arts are the perfect vehicle for this formative process. Through our structured but fun program of music, dance, theatre and visual arts, our children not only absorb these and all academic subjects with enthusiasm and ease – but they also develop the creativity, social skills and confidence to successfully and meaningfully apply them throughout their futures.

It's this philosophy and unique program that set us apart from every other preschool. It's the Art of Preschool.

"There is a brilliant child locked inside every student."
