

"When I examine myself and my method of thought, I come to the conclusion that the gift of fantasy has meant more to me than my talent for absorbing knowledge."

- Albert Einstein

Preschool for their gift of fantasy.

Although he has become the very symbol of genius, Albert Einstein did not have the market cornered on imagination. In fact, we believe that the "gift of fantasy" he was talking about is inherent in every single child.

But the free and boundless creativity that allows children to absorb and enrich their world so effortlessly too often seems to fade with age. Lucky are those who can preserve and nurture this gift – because for them, anything is possible...always.

With a fundamental focus on music, dance, theatre and visual arts, our goal is to enable children to fully explore and apply their imaginations in an endless variety of ways. With the power to envision the possibilities and the confidence to pursue them, they can realize their dreams.
