Employment Opportunity

Education Assistant

Do you have a passion for children? Are you inspired at every turn to create a positive and engaging learning environment for students?

ArtsCalibre Academy is looking for energetic and creative Education Assistants who will continuously inspire our students to reach their full potential.

Education Assistants work collaboratively with our teachers to build successful learning programs. You will work directly with students to provide academic assistance and promote positive behaviour. ArtsCalibre Academy is an extraordinary and dynamic learning environment in which you will be called upon to support students in small classes and individually – in the classroom, the community...and on the stage!

Successful candidates will have extensive experience working with children, and will have their Education Assistant/Community Support Worker certification or have completed equivalent post-secondary courses in child and/or adolescent development. First Aid and CPR certification as well as a clear Criminal Record Check are also required. Experience in one or more areas of the Arts – such as music, dance, theatre and visual expression – is preferred but not mandatory.

Please submit your resume to **Ms. Sandra Walton**, Principal and Executive Director, via email to info@ArtsCalibre.ca – or drop it off in printed form at our Elementary/Middle School campus at **4201 Tyndall Avenue** in Victoria.
